See you at the hotel tomorrow for lunch.

**Přečtěte** si text "Rubbish" a **odpovězte** na otázky 51 – 55. Krátké odpovědi vepište do okének záznamového archu.

Rubbish

Jane

In my town a lot of young people don't care about rubbish. They drop litter in the streets all the time. The streets are full of plastic bottles, take-away food containers, cans and other rubbish. I always try to put my rubbish in the bin, but sometimes I think there is no point. The streets will never change.

There's a little old lady in my town. Every day I see her on the street picking up litter and putting it in the bin. I feel sorry for her because she looks lonely. One day I'll talk to her. I'd like to know why she always picks up litter.

Omar

My town was so dirty 10 years ago. Even the young people felt bad because the town looked terrible. It was full of rubbish. The swings, slides and other play equipment in the park were broken. Then a group of us decided to do something about it. We had a big party in the summer to raise money and made about two thousand pounds. Local businesses also gave us money, and local people did all the work.

Now our town is so pretty. We have new play equipment in the park, less litter, and we have flowers all over the town. Everyone here is smiling again.

Sam

I always feel so confused about rubbish in Britain! Some rubbish goes in my green bin; other rubbish goes in my black bin and some things I can't put in my bins!

I think that people here have too much rubbish, but that's not their fault. When they buy things at the supermarket, everything comes in a plastic bag, or a box, or sometimes both. We don't need all this packaging. And people buy a lot of things they don't need. They even buy water in shops and cafés! Buying water in plastic bottles is a waste of money. The tap water here is really clean.

- 51) What would Jane like to ask the old lady?
- 52) Look at Omar's text. What was the purpose of the special event?
- 53) Why does Sam think that bottled water is a waste of money?
- 54) Who collected money?
- 55) What does Sam find confusing?
